Description

Financial meaning

A **portfolio bundle** is a logical grouping of multiple portfolios that are managed, monitored, or processed together. It allows combining different portfolios under a single structure for operational efficiency, consolidated reporting, or grouped reconciliation.

Platform abstraction

In the Finmars platform, a **Portfolio Bundle** serves as an entity that links several [portfolios](#) into a single operational unit.

Portfolio Bundles are used in:

- Grouping multiple [portfolios](#) together to allow consolidated views for valuation, [reporting](#), and performance analysis.
- Enabling aggregated [reconciliation](#) workflows by combining cash and position data across bundled portfolios.
- Allowing batch operations and monitoring across multiple [portfolios](#) in operational workflows.

Examples

Name	Unique Code	Notes
CH-BND-20394857	CH-BND-20394857	

- **Name:**  Display name of the portfolio or bundle, used for identification in the interface.

- **Unique Code:** System-generated unique identifier for the portfolio or bundle, used for internal references and linking.
- **Notes:** Additional comments or descriptions to provide operational or contextual information.

How to Create a Portfolio Bundle Entity

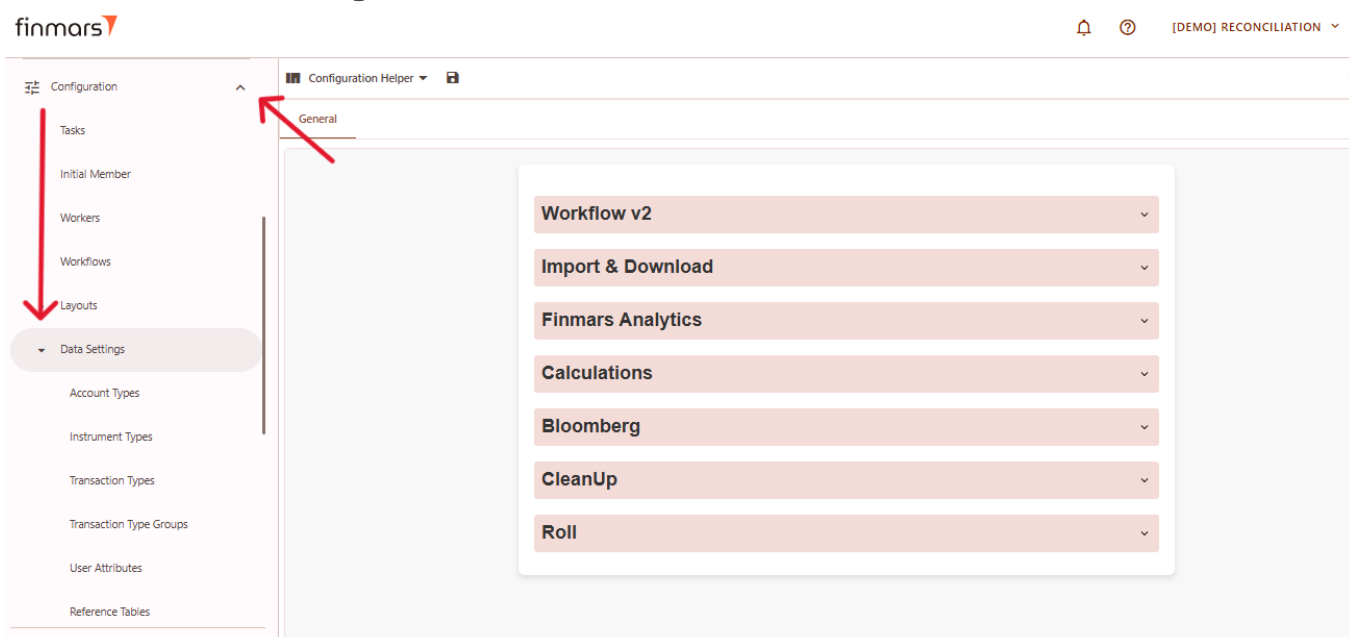

Prerequisites

We assume you have all prerequisites you may need, including:

1. If needed: the VPN is configured to access the Finmars resources
2. If needed: access to the Virtual Machine to work with the sensitive information
3. Must have: registered in Finmars in the needed region environment (self-registered or registered by Finmars)
4. Must have: having permissions set to allow continue with the Action in the Guide

Creation of Counterparty Entity

1. Navigate to the **“Configuration”** section from the left-side menu. Under Configuration, select the **“Data Settings”** subsection.

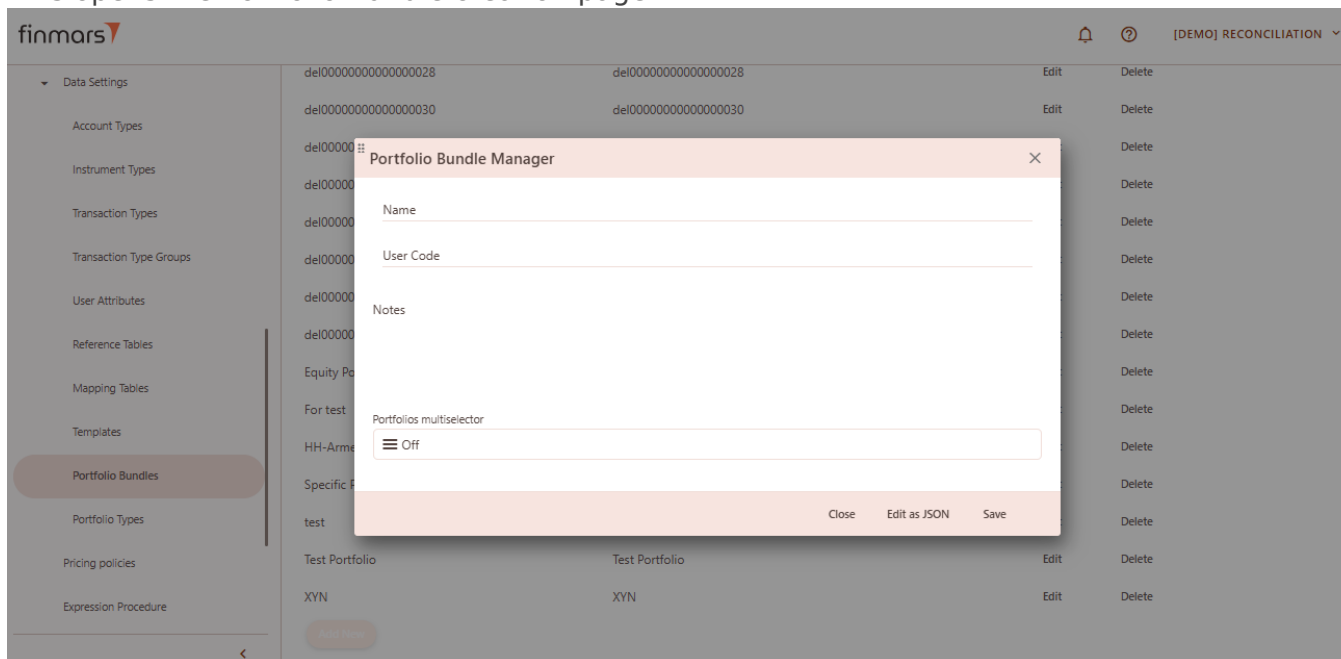

2. In the list of available options, click on **“Portfolio Bundle.”**

4. This opens the Portfolio Bundle creation page.

5. Fill in the following fields:

1. **Name** – provide a name for the new bundle.
 2. **User Code** – enter a unique identifier or code for internal reference.
 3. **Notes** – optional field for internal comments or description.
 4. **Portfolios Multiselect** – use the multiselect to choose one or more portfolios to include in the bundle.
6. Once all required information is entered, save the bundle using "**Save**" button.
