

Standard Modules Installation

Great, your empty Space is ready, move to Marketplace

The screenshot shows the 'Marketplace' interface with a search bar containing 'standard'. The interface displays a grid of modules with their names, codes, and versions. Each module has an 'Install' or 'Reinstall' button. The current version of some modules is also indicated.

Module Name	Code	Version	Action
Standard - Aliases	com.finmars.standard-aliases	1.1.1	Install
Standard - Asset Manager Layouts	com.finmars.standard-asset-manager-layouts	1.0.2	Install
Standard - Instrument Types	com.finmars.standard-instrument-type	1.0.18	Reinstall
Standard - Layouts	com.finmars.standard-layouts	1.1.0	Reinstall
Standard - Monitoring	com.finmars.standard-monitoring	1.0.7	Install
Standard - Monitoring (Interface)	com.finmars.standard-monitoring-interface	1.0.0	Install
Standard - New User Setup	com.finmars.standard-new-user-setup	1.1.0	Install

Standard - Workflow All Sources	com.finmars.standard-workflow-all-sources	1.1.1	Install
Standard - Workflow Interface	com.finmars.standard-workflow-interface		Install
Standard Configuration	com.finmars.standard	1.1.13	Install
Standard Import - File	com.finmars.standard-import-from-file	1.1.9	Install
Standard Import - Julius Baer	com.finmars.standard-import-julius-baer		Install

We need to install following Modules:

- Standard - Instrument Types
- Standard - Transaction Types
- Standard - Layouts
- Standard - Aliases
- Standard - Pricing
- Standard - Other
- Standard - Import From File
- Standard - Workflow
- Standard - Aliases

That will be enough for now

Also make **Standard - Aliases - is primary** in Manage Configurations Page
