<div>S</div> <div>Standard - Workflow All Sources</div> <div>code: <code>com.finmars.standard-workflow-all-sources</code></div> <div>version: 1.1.1</div> <div>Install</div>	<div>S</div> <div>Standard - Workflow Interface</div> <div>code: <code>com.finmars.standard-workflow-interface</code></div> <div>version:</div> <div>Install</div>	<div>S</div> <div>Standard Configuration</div> <div>code: <code>com.finmars.standard</code></div> <div>version: 1.1.13</div> <div>Install</div>	<div>S</div> <div>Standard Import - File</div> <div>code: <code>com.finmars.standard-import-from-file</code></div> <div>version: 1.1.9</div> <div>Install</div>	<div>JB</div> <div>Standard Import - Julius Baer</div> <div>code: <code>com.finmars.standard-import-julius-baer</code></div> <div>version:</div> <div>Install</div>

We need to install following Modules:

- Standard - Instrument Types
- Standard - Transaction Types
- Standard - Layouts
- Standard - Aliases
- Standard - Pricing
- Standard - Other
- Standard - Import From File
- Standard - Workflow
- Standard - Aliases

That will be enough for now

Also make **Standard - Aliases - is primary** in Manage Configurations Page

Revision #7
