

Logos (Light & Dark Versions)

- **Overview:**

The application supports two versions of the logo:

- **Light Logo:** Used with a light theme.
- **Dark Logo (Logo dark):** Optimized for a dark theme.

- **Purpose:**

Separate logos ensure that the branding remains clear and visually appealing regardless of the selected theme.

- **Display Location:**

Both logos appear in the upper left corner of the application and automatically switch based on the active theme.
