

Workflow Engine Overview

Here will be brief introduction of Frontend of Workflow Engine

You will start from Homepage (Home), it shows list of Definitions. Actually this page is for backward compatibility. Normally you will run your workflows from **Workflow Templates** page. But on this page you able to see all Workflows that a registered (presented in Explorer File System) and you able to **Run** them. So to see new modules you need to **Refresh Storage**

<div><div><div><div><div><div></div></div><div>Finmars</div><div>master finances</div></div></div><div><div><div>Collapse</div><div>Home</div><div>Workflow Templates</div><div>Workflows</div><div>Schedules</div><div>Documentation</div><div>API Documentation</div><div>Logs</div></div></div></div></div>	Name	User Code	Is Manager	Actions
		com.finmars.bloomberg-data-license-broker:download-instruments	No	Run
		com.finmars.bloomberg-data-license-broker:download-prices	No	Run
		com.finmars.cim-api:import-positions-custom	No	Run
		com.finmars.cim-api:import-transactions-custom	No	Run
		com.finmars.cim-api:import-transactions-daily	No	Run
		com.finmars.cim-api:move-to-download	No	Run
	Download Data	com.finmars.example-etl:download	No	Run
	Import Data	com.finmars.example-etl:import	No	Run
	Transform Data	com.finmars.example-etl:transform	No	Run
		com.finmars.julius-sftp-broker:download-data	No	Run

On left side of Application you see Sidebar, you can Navigate between different pages of Workflow Engine App. Lets Proceed to **Workflow Templates Page**
