

# Workflow Engine Overview

Here will be brief introduction of Frontend of Workflow Engine

You will start from Homepage (Home), it shows list of Definitions. Actually this page is for backward compatibility. Normally you will run your workflows from **Workflow Templates** page. But on this page you able to see all Workflows that a registered (presented in Explorer File System) and you able to **Run** them. So to see new modules you need to **Refresh Storage**

Finmars master finances		Name	User Code	Is Manager	Actions
